## IMPORTANT SAFETY RECALL

This notice applies to your vehicle.

Model: (Year) (MODEL)

VIN: XXXXXXXXXXXXXXXXXXXX

Dear Suzuki Owner,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Suzuki Motor Corporation has decided that a defect which relates to motor vehicle safety exists in certain 2004~2008 Suzuki Forenza and 2005~2008 Suzuki Reno vehicles.

Symptoms you could experience with your vehicle related to this Safety Recall Campaign are:

- Abnormal operation of the High or Low Beam Headlamps – This may include flickering when in use, headlamps not coming on when turned on or headlamps not turning off when turned off. Typically the Instrument Cluster Lamps and other Interior Lamps are not affected by the recall and will operate normally.
- Abnormal operation of the Daytime Running Lamps (DRLs) - This may include DRLs that flicker when on, DRLs that do not come on automatically when the Headlamp Switch is in the OFF position or the DRL Icon Lamp in the Instrument Cluster is either on when headlamps are on or is off when the DRLs are on. In addition, DRLs may be on at all times, even when the key is removed from the ignition.
- You may notice an unusual odor of overheated plastic or wiring insulation.
- You may notice that intermittently your vehicle battery has discharged while the vehicle is sitting.

Affected vehicles may generate heat in the Headlamp Switch or DRL Module, located on or near the left side of the steering column, which could melt the switch or module. If the heat generated within the Headlamp Switch or DRL Module melts the component, there is an increased risk of a fire. You do not need to stop driving your vehicle, however if local driving rules or driving conditions require the use of your headlamps or DRL lighting, Suzuki cannot recommend you operate the vehicle if the lighting is not operating as designed. If you smell unusual odors associated with possible overheated plastic or wire insulation while driving, please safely drive the vehicle off the roadway and exit the vehicle immediately. In addition, avoid parking the vehicle near permanent structures or in a garage until repairs can be performed.
